Abstract

The abstract should briefly describe the research problem, objectives, methodology, key findings, and conclusion. It should be concise and informative.

Length: 200–300 words

Font: Times New Roman, 11 pt

Spacing: Single

Keywords

Provide **4–6 keywords** separated by commas.

Example: Artificial Intelligence, Machine Learning, Healthcare, Data Analytics

1. Introduction

Introduce the background of the study, research problem, objectives, and significance of the work.

2. Literature Review

Discuss previous research relevant to the topic and identify the research gap.

3. Research Methodology

Describe the research design, materials, methods, data collection techniques, software, statistical tools, and experimental setup.

4. Results and Discussion

Present results using tables, figures, graphs, and appropriate discussion.
